Forecast for Friday 03 Mar 2023

Weather: The morning will be quite dull but mainly dry, although some drizzle possible on the hills, especially for more northeastern hills. Cloud breaks developing with some bright or sunny weather in the afternoon and clear spells into the evening.

Chance of cloud-free hill tops above 600m: 80%, early low cloud will lift above all summits.

Low Cloud and visibility: Layers of scattered cloud above 500m are expected in the early morning however these should lift above the height of all summits for the remainder of the day. General visibility below the cloud layer should be good or very good but it will feel rather dull in the morning.
